

PTA News Letter

Vol.4/2022/3/10

Kindergarten Class PTA

This is the season of departure

The K5 graduation ceremony is just a few days away. As in the previous year, the children were forced to live a different life in Covid-19 pandemic, and we are sure they had to endure a lot, but seeing them singing and dancing happily at the Open Class the other day and speaking up well for map explanation of the Art Exhibition, we were impressed that the children have learned under such difficult circumstances. We are sad to say goodbye to the K5 children, but we sincerely hope that they will continue to do well in their new environment.

Reflections on PTA Activities in FY2021

The PTA will be discontinued next year, but it has been a process of many trials and errors. The board members would like to convey our thoughts to teachers, parents and children in both Japanese and English.

★<Chairperson K5 Kanta's mom>

With the prolonged Covid-19 pandemic, it was a year in which we wondered each time whether and how we could hold various events that would lead to significant emotional growth for children. We also made new attempts, such as streaming a video of the Halloween event that parents were not able to attend. I believe that children will grow stronger if they see us adults thinking positively about what we can do and overcoming

obstacles, rather than letting them learn to give up through the Covid-19 pandemic.

The new school year will be a new step forward for us, as it will be a chance to review our future PTA activities, considering that our lives will be completely changed by the unexpected Corona pandemic and the environment that is changing with the times.

I will be graduating, but I support the new system. I also would like to thank you from the bottom of my heart for the many opportunities I have had to think about children's emotional growth and learning environments during my K3 and K5, 2 years as a PTA board member.

Thank you to all the teachers and parents for your cooperation in PTA activities. We sincerely hope for the continued healthy growth of the children at Sui.

★ <Vice chairperson/Public relations K4 Sara's mom>

There were many things I couldn't do well as a board member, and I apologize for any inconvenience I caused, but I am grateful to all the teachers and parents who cooperated with me with a forgiving heart. For the newsletter I was in charge of, I had to research and consult with Kanta's mom to somehow deliver useful information for everyone in new endeavors such as parenting tips, and I also learned a lot for myself. Although some events were cancelled due to Covid-19 pandemic, but I was happy to see the smiles on the children's faces during PTA activities. I hope to support Sui and the children next year as a cheerleader. Thank you for your continued support.

★ <Secretary K4 Harumi's mom>

Dear parents and teachers, thank you for your cooperation. We were very happy to see many smiles on the children's faces at the school events.

Although the PTA will no longer be active next year, I hope to be a part of the cheering squad to make the event more exciting.

★ <Treasurer K5 Marie's mom>

I would like to appreciate all the teachers and parents for the support for us in such challenging circumstances.

Thank you so much!!!

★ <Treasurer K4 Cocona's mom>

It was my first time and I made some mistakes, but thanks to everyone's warm support, I managed to finish my term safely. By being involved in various events, I learned a lot from children, parents, and teachers, and also it was a fulfilling year. I'm really thankful to you.

As a cheering party for Sui, I would like to continue working to make children smile.
